SUMMARY

Full Stack Developer with hands-on experience building and deploying production-ready web applications using Next.js, React, TypeScript, and Laravel. Skilled across the MERN stack, Prisma ORM, and Docker, with a strong focus on clean, scalable, MVC-based engineering.

SKILLS

Languages: JavaScript (ES6+), TypeScript, PHP

Frontend: Next.js, React, HTML5, CSS3, Tailwind CSS

Backend: Laravel, Node.js, Express.js, RESTful API Design, MVC Architecture

Database: MySQL (Prisma ORM), PostgreSQL, MongoDB

DevOps: Docker, Vercel

Tools: Git, GitHub, Postman

EXPERIENCE

Global Webify

May 2026 – Present

Web Developer

Ranchi, Jharkhand

Global Webify - Website | [Live](#)

- Built and deployed the company's official website, including dynamic service/blog/portfolio pages, a career portal with job applications, and inquiry forms with Cloudinary uploads and TipTap rich-text editing.
- Achieved a 90+ Lighthouse score through strategic database indexing, Sharp image optimization, and code splitting.
- Developed a custom admin CMS with JWT-based role authentication, rate-limited login, and audit logging, enabling the internal team to manage 10+ content modules independently, without developer support.
- **Tech Stack:** Next.js 14, TypeScript, Prisma ORM, MySQL, Vercel, Cloudinary, TipTap, JWT.

Multi-Vendor E-Commerce Platform

- Architected a scalable marketplace with vendor and admin dashboards using hybrid SSR/ISR rendering and database indexing, achieving a 90+ Lighthouse score on a schema designed to scale to 10,000+ products.
- Integrated Razorpay and Shiprocket APIs, automating 100% of vendor payout splits and AWB dispatch generation, cutting order processing time by 80%.
- Built a multi-level Return & QC workflow and an automated retention engine (cart retargeting, dynamic discounts) projected to recover 20–30% of abandoned orders, plus automated invoicing via jsPDF.
- **Tech Stack:** Next.js, React, TypeScript, Prisma ORM, MySQL, Tailwind CSS, Razorpay, Shiprocket API, JWT.

NotionZoa

Mar. 2025 – Mar. 2026

Junior Software Intern

New Delhi

- Engineered integration with the Jira API to synchronize bug tickets, enabling real-time display and attribution of each ticket to the respective QA member within the Coordinator dashboard.
- Developed a Coordinator approval workflow for reviewing bug reports and assigning impact-based reward points, with strict validation rules to prevent duplicate approvals.
- Implemented secure Role-Based Access Control (RBAC) across both dashboards using a Laravel backend, PostgreSQL database, and a responsive React and Tailwind CSS frontend, ensuring data integrity and proper user authorization.
- **Tech Stack:** Laravel, PHP, PostgreSQL, React, REST API, JavaScript, Git, and Tailwind CSS.

EDUCATION

Sarala Birla University

Nov. 2021 – Feb. 2025

Bachelor of Computer Applications (BCA)

Ranchi, Jharkhand
